## Summary

- 3+ years of experience in Frontend Web Development
- Developed numerous pages/components/business-logic implemented and running in production
- I have successfully built impressive products in an educational startup, a top design studio, and a leading AI product-based company
- On the backend I had experience with Node.js, PHP, Docker and GitLab CI/CD

## Experience

### Frontend Web Developer

#### Nanosemantics Lab

Sep 2022 - Present (1 year 4 months)

As a Frontend developer I worked on 2 projects:

DialogOS – a platform for creating/publishing chatbots with AI features.

Marker – a media data markup platform for training neural networks.

- Developed numerous pages/components/business-logic implemented and running in production
- Conducted code reviews within the team
- Mentored a junior frontend developer
- Led several major refactoring efforts in the Marker project core, enhancing developer experience
- Successfully closed the grant tasks for the Marker project

Stack: React, Typescript, GraphQL Apollo, Vite, Webpack, SWR, Recoil, SCSS, MUI, Node.js, Docker, GitLab CI/CD

Nanosemantics Lab is one of the top AI company in Russia specializing in chatbots, voice assistants, NN and big data analysis systems.

### Frontend Web Developer

#### Art. Lebedev Studio

May 2021 - Sep 2022 (1 year 5 months)

As a Frontend developer I worked on 6 projects, including 2 corporate websites, 2 landing pages, 1 eCommerce website, and internal project management tool.

- I was a lead frontend developer on the Prodimex corporate website and 2 landing pages projects
- Developed numerous pages/components/business-logic implemented and running in production
- On the Naray.one eCommerce website project, I developed an HTML editor for clothing prints, similar to codepen.io
- All projects were successfully completed and deployed to production
- Effectively collaborated in teams consisting of designers, backend developers, managers, and frontend developers

Stack: React, Redux, Webpack, Figma, HTML, SCSS.

Art. Lebedev Studio is among the top 5 design studios in Russia.

## **Full-stack Developer**

**PRE.AX**

Jan 2021 - May 2021 (5 months)

Worked on creating online marathons for juniors in frontend development focused on building React applications.

- Developed Telegram bot scripts using FlowXO for participant-organizer interaction
- Created PHP webhook scripts with business logic:
  1. Integrated GitHub with Google Sheets (tracking participant commits in repositories, push actions)
  2. Script for pairing participants for mutual code reviews and subsequent personal notifications via Telegram bot
  3. Checked participant activation status via email
  4. Sent logs from all services to Google Sheets
- Wrote tasks for 3 online frontend marathons (Design in Figma + React tasks + Redux tasks + evaluation criteria)
- Created email templates for mail campaigns

Stack/services: PHP, Google Sheets, React, Redux, Figma, FlowXO, Git

PRE.AX is an educational startup helping junior frontend developers gain work experience

## **Junior Expert**

**IBS**

Jul 2019 - May 2021 (1 year 11 months)

## **Intern**

**IBS**

Jul 2018 - Jul 2019 (1 year 1 month)

## **Intern**

**Deloitte**

Aug 2017 - Oct 2017 (3 months)

Summer internship.

Worked on the dashboard interface in a BI system, performed manual testing, and optimized code.

## **Education**

### **The National University of Science and Technology (MISIS)**

Master's degree, Information systems and technologies

Sep 2017 - Aug 2019

## **Moscow State University of Psychology and Education (MSUPE)**

Bachelor's degree, Applied Informatics

Sep 2013 - Jun 2017

### **Skills**

Apollo GraphQL • React • TypeScript • Vite • Webpack • Node.js • Redux • HTML •  
Cascading Style Sheets (CSS) • Figma (Software)
